

Magnetic Safety Switch 'Ferrogard GD2'

Two Ferrogard 9 magnetically actuated safety switches available in either a pre-wired or a standard 4 pin plug-in female connector versions. Features a unique slim design of switch and actuator case, incorporating 1 N/C safety contact. Should be protected by an external fuse, rated as shown. For use on DC circuits only.

| Operating distance | Make 12 mm , break 23 mm |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Contact arrangement | 1 N/C ( with actuator in place) |  |  |  |
| Internal fuse | 1 A at 24 Vdc , (non-resettable) |  |  |  |
| External fuse | 800 mAmp (recommended protection) |  |  |  |
| Temperature | $-10^{\circ} \mathrm{C}$ to $+65^{\circ} \mathrm{C}$ |  |  |  |
| Housing material | Moulded ABS |  |  |  |
| Conforms to standards | EN1088, EN292, EN60204-1 |  |  |  |
| Connections | Pre-wired 2 core cable, 2M or 4 pin plug-in connector |  |  |  |
| Connector lead IP Rating | M12, 4 pin connector, PVC cable, 5M |  |  |  |
|  | IP67 |  | nit P |  |

Two Ferrogard 20 magnetically actuated safety switches available in either pre-wired or a standard 4 pin plug-in female connector versions. Ideal for environments where hygiene is important. Featuring 2 N/C safety contacts. Should be protected by an external fuse, rated as shown. For use on DC circuits only.

Five Ferrogard GD2 magnetically actuated safety interlock switches offering all the advantages of the standard Ferrogards but with stainless steel housings for switch and actuator to use in arduous environments. Sealed to IP 68 allows pressure hosing, making them ideal where hygiene is paramount. Can be used in temperatures of up to $125^{\circ} \mathrm{C}$. Available in AC and DC versions with different contact configurations in each. The GS2 offers all the same characteristics but in an explosion proof housing for hazardous atmospheres. All are supplied pre-wired with a 3 mtr cable. All switches should be protected by external fuse, rated as shown.
