Keys

Compact, solid & sturdy keys supplied with dust seals and colour coded tagging for use as primary, secondary or replacements. All key code options can be supplied upon request.

Lost key Data:
 Simply read the 4 digit number from each lever of the coded barrel as shown.

Note:
 For new installations or new key interlocking systems it is advisable to differ key codes from existing key interlocking systems to eliminate duplicate key coding and provide safety against inadvertent or unauthorised de-isolation.
